Foreword

前言

Ladies and Gentlemen,

Looking back at the previous year, Bosch achieved significant growth in 2011, which echoed the celebration of the company's double anniversary: the 125th anniversary of the company's foundation and the 150th anniversary of the birth of its founder, Robert Bosch.

In 2011, Bosch Group sales revenue grew to 51.5 billion euros, which exceeded the company's growth target. In fact, the company recorded one of its best years since 2000. In 2011, Bosch invested 4.2 billion euros in research and development and applied for more than 4,100 patents. The relatively steady growth in Asia and China in particular further contributed to the impressive performance of Bosch in 2011.

2011 was the start of China's 12th Five-Year Plan. China's economy kept steady and rapid growth, achieving a 9.2 percent GDP increase in 2011, which was far in excess of the average growth rate of the world economy. In a way, China acted as a "stabilizer" of the global economy.

Amid the good start of the 12th Five-Year Plan, the three business sectors of Bosch China continued their strong performance with another year of double-digit growth. Bosch in China generated a total sales revenue of 42.3 billion yuan. Thirteen percent year-on-year growth made China the Bosch Group's third most significant market after Germany and the United States in terms of sales. In 2011, the company invested 4.1 billion yuan in China. Some 30,200 associates are employed at 51 legal entities in this country, the largest workforce outside Germany.

Bosch's 2011 associate survey showed how satisfied the associates of Bosch China are. In December 2011, moreover, Bosch China was named one of China's Top Employers 2012 by the Corporate Research Foundation, an independent human resource institute. Both

associates' satisfaction and the independent institute's award are recognition of the company's great efforts to recruit local talent.

In addition, Bosch has continually committed to corporate social responsibility. In April 2011, the "Bosch China Charity Center" was officially established to support education and poverty relief in China. An annual investment of 25 million yuan demonstrates the company's strong commitment to Chinese society. As a responsible corporate citizen, Bosch also continues its sustainable growth in western China. In November 2011, Bosch signed an investment agreement to build a second production facility for its Packaging Technology division in Chengdu. In February 2012, Bosch officially broke ground for a new plant of its Chassis Systems Control division in the same city, showing its firm confidence in the western region of China.

The company's double anniversary in 2011 is now followed by the Year of the Dragon. In 2012, we will continue to strengthen our roots in China with technical innovations and close partnerships with local companies. In 2012, Bosch and its associates will work together to further contribute to the sustainable growth of China.

With best regards

Yudong Chen
President
Bosch (China) Investment Ltd.

尊敬的女士们、先生们：

时光荏苒，岁律更新。一份耕耘，一份收获。回顾2011年，博世集团迎来集团创立125周年和集团创始人罗伯特·博世先生诞辰150周年的双周年纪念。博世集团创下累累硕果，为其双周年纪念的庆典之年锦上添花。

2011年，博世集团超过了增长目标，取得了515亿欧元的销售额。这是博世集团自2000年以来最好的年份之一。2011年，博世集团在研发方面的投入超过42亿欧元，申请了4,100多项专利。而亚洲特别是中国经济相对稳定的增速为博世2011年骄人的成绩添上了浓墨重彩的一笔。

2011年是“十二五”规划实施的开局之年，中国经济保持了平稳较快的发展。2011年，中国的国内生产总值(GDP)增长率达到9.2%，增速远超世界经济平均增长水平，成为世界经济的“稳定剂”。

在“十二五”良好的开局下，博世中国的三大业务部门表现卓越，继续保持两位数的增长。博世中国的总销售额达到423亿人民币，13%的增幅使中国继续保持博世继德国和美国之后的第三大市场。2011年，博世在中国的投资达到了41亿人民币，全国51家公司拥有员工约30,200名，成为在德国以外拥有员工数最多的国家。

2011年博世展开的员工满意度调查显示了博世员工对博世中国的满意度。同年12月，博世中国荣获由国际独立人力资源实践评估与认证机构联合调查机构颁发的中国杰出雇主奖。员工的满意度和独立机构的认证表明了博世致力于本土人才培养的成效。

除此之外，博世中国始终践行着企业社会责任。2011年4月，“博世中国慈善中心”正式成立，每年计划投入2,500万人民币支持中国的教育发展和扶贫事业，兑现着博世对中国社会的坚定承诺。作为企业公民，博世积极致力于中国中西部地区的可持续发展。2011年11月，博世与成都市政府签订协议，在四川成都建造包装技术的第二个制造工厂；2012年2月，博世底盘控制系统同样选址成都，举行了博世汽车部件（成都）有限公司的奠基仪式，表明了对中国西部发展的坚定信心。

辞去2011年的“博世双周年纪念”，展望龙年，博世将通过持续创新的技术以及携手本土公司的紧密合作，不断深化在华百余年的积淀与承诺。2012年，博世及博世员工将齐心协力，为中国的可持续发展做出贡献！

此致！

Corporate Social Responsibility

企业社会责任

Corporate social responsibility means striking a balance between business interests on the one hand and social and environmental interests on the other. This is nothing new to Bosch: in fact, corporate social responsibility has a long tradition at the company. Over 125 years ago, the company founder Robert Bosch defined Bosch's corporate social responsibility when he said: "I would rather lose money than trust." Since then, Robert Bosch's spirit has shaped the company. Bosch strives to be socially responsible wherever it does business. With over 100 years of history in China, Bosch is committed to implementing social responsibility at all levels, contributing to the harmonious development of Chinese society through environmental protection, education promotion, driving safety, and social involvement. As a recent example of this commitment, Bosch China officially established the Bosch China Charity Center (BCCC) in April 2011. With an annual budget of 25 million yuan, the Bosch China Charity Center will contribute to education development and poverty relief in China.

Bosch bursary programs

In September 2011, the Bosch China Charity Center launched its university bursary program, with a fund of five million yuan. Over the course of three years starting from 2011, the program will support some 900 freshmen at eight universities across China. The bursary program aims to reduce monetary pressure so students with financial difficulties can focus on their studies. In addition, all bursary receivers will be given precedence when applying for internships or job openings at Bosch China.

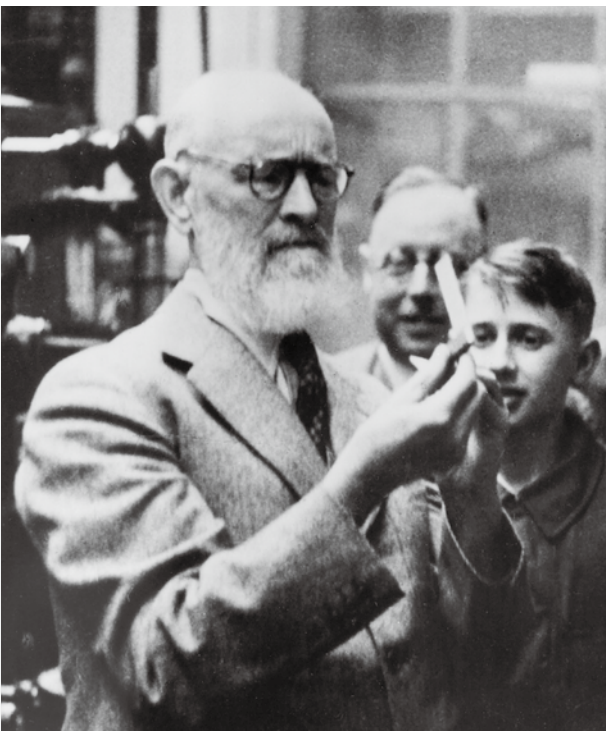

Furthermore in December 2011, the Bosch China Charity Center invested some 600,000

yuan to help 1,200 middle and primary school students in Shanghai's Changning district, where the Bosch China headquarters is located. The bursaries of the program, which was launched together with the Care for Next Generation Charitable Fund by Changning district, will support these students over the next three years.

Bosch schools in Sichuan

In June 2008, Bosch donated 11 million yuan for the rebuilding of two schools in the area devastated by the Sichuan earthquake of May 12, 2008. Right after the disaster, all Bosch subsidiaries, joint ventures, and associates in China helped the relief efforts, giving donations and other forms of support. Bosch's total contribution to aid efforts and reconstruction programs for the people of Sichuan came to over 15 million yuan.

In 2009, the two above-mentioned schools were reconstructed and renamed Taiqing Bosch School and Musu Bosch Central School. Bosch continues its support, making 200,000 yuan available every year as financial assistance for the purchase of stationery and books.

It all started with our company founder Robert Bosch, who never viewed entrepreneurial endeavor as an end in itself. Instead, he wanted to help shape a “meaningful social reality”, and so do we.

博世的企业社会责任始于公司创始人罗伯特·博世先生。他不仅仅重视企业本身的发展，还致力于建造一个“有意义的社会实体”，同时这也是博世所坚持的传统。

Robert Bosch (1861-1942)
罗伯特·博世 (1861-1942)

企业社会责任意味着兼顾业务、社会和环境利益的平衡。这对博世来说并不是一个全新的领域。事实上在博世，企业社会责任有着悠久的历史。早在125年前，博世创始人罗伯特·博世就以其名言“宁失利，不失信”为公司的企业社会责任打上了不可磨灭的烙印。如今，罗伯特·博世的这一精神传承至今，奠定了博世企业文化价值观的基础。无论在何处开展业务，博世都积极贡献于当地社会的发展。博世在中国已经拥有超过百年的发展历史，并致力于成为负责任的企业公民。从环境保护，教育发展到驾驶安全，博世践行着对中国社会的坚定承诺。秉承这一理念，博世于2011年4月正式成立了“博世中国慈善中心”，每年将会投入2,500万元人民币，用于支持中国教育发展和扶贫事业。

博世助学金计划

2011年9月，博世中国慈善中心投入近500万人民币启动“博世校园助学金计划”。从2011年开始，在未来三年内，该计划将资助900名大学贫困新生的首年学费。“博世校园助学金计划”旨在帮助大学贫困新生解决经济困难，鼓励他们努力学习。此外，博世还向其提供在博世实习与工作的优先机会。

同年12月，博世中国慈善中心投入60万人民币在未来三年内资助1,200名就读于博世中国总部所在的上海长宁区的贫困中小学生。博世中国与长宁区关心下一代协会共同合作成立的助学金项目将在未来三年内为学生提供资助。

博世四川希望学校

2008年6月，博世捐资人民币1,100万元旨在重建两所在“5.12 四川地震”中损毁的学校。在地震发生后不久，博世中国及其在华分公司、合资企业和员工通过多种渠道捐资助物。博世对四川灾区人民的捐款累计达人民币1,500万元。

2009年，博世重建的两所名为太清博世九年制学校和木苏博世博爱中心学校建成并投入使用。在学校落成之后，博世持续关注两所学校的状况并每年投入20万人民币用于资助学生购买书籍和文具用品。

Bosch – a Top Employer in China

博世 – 中国杰出雇主

Robert Bosch himself appreciated how important it was to have motivated associates, and his company still shares that belief today by offering good working conditions, competitive pay, social benefits beyond what is legally required, a wide array of opportunities for training and development, as well as fair treatment across the board. For this reason, Bosch China was named one of China's Top Employers 2012 by Corporate Research Foundation (CRF), an independent international human resource institute.

Talent localization and international career paths

Talent localization is one of the key elements of Bosch's "local for local" corporate strategy in China. It plays an important role in the company's long term growth in the country. Bosch China employs some 30,200 associates, which means that only Bosch in Germany employs more Bosch associates. By 2015, Bosch China plans to almost double the number of associates to some 50,000, with the number of management positions increasing to some 1,500. Most of those positions will be filled by locally hired people. It is now planned that some 80 percent of senior management positions should be local associates, an increase from the current level of 60 percent. In general, around 90 percent of all manager-level positions will be offered to Chinese associates.

Bosch offers various international assignments to its associates in order to nurture talent and strengthen potential leaders by providing them with overseas working experience and a global vision. In 2011, hundreds of Chinese associates went overseas both for short-term project assignments related to forums or training courses and for long-term working assignments.

Career development and training system

Bosch encourages continuous improvement and life-long learning. Bosch takes a systematic approach to the development of its associates and assesses their potential on a regular basis. According to personal career objectives and capabilities, associates can choose different career development paths within the company. Bosch's in-house training center also offers diversified training programs: almost 200 courses were offered to some 7,300 participants in 2011. Furthermore, specially designed programs for leadership development or manager development are available to qualified associates.

In addition, in order to develop future executives in China, Bosch introduced its Junior Managers Program in China in 2008. What's more, to further develop female associates, Bosch China has also set up training courses which are especially designed for women. Female associates already account for a sizable percentage of Bosch China's workforce.

Work-life balance
