Latin Salutatory Oration

Neil John Hannan

The Latin salutatory is awarded by vote of the faculty to one of the highest-ranking candidates for bachelor degrees. The special qualifications of a student as saluatorian are taken into account, as well as scholastic standing.

Salutatio

*Habita in Comitiiis Academicis Princetoniae
In Nova Caesarea a.d. IV Non. Iun.
Die II Iunii
Anno Salutis MMXV
Anno Academiae CCLXVIII*

vos clariores, Aeoliis modis
libens saluto, cum brevitate quae
non laudibus vestris sed apta est
ingenio tenui loquentis.

o Praesidens, nunc accipe verba, quo
campus, Batavi principis hoc decus,
ducente curatoribusque
consiliisque vigeat nitescens.

o doctus ordo, non homines tacens
dignissimos vos praetereo, quia
semper docebatis benigne,
quorum ope victa thesis ferox tum.

nec nunc parentes praetereo (nefas!),
o providentes auxilium silens,
nec vos, amici, nunc quibuscum
perficioque notoque "fine,"

annos iuventae. omnibus avolans
attingit aetas. Innumerabiles
annos canat vates triumphans
vel moneat resecurare longas

spes. deminutam perpetue diem
sic doctiores collyborum ferant,
dicant inaequalem sagittam
sic physici in spatio universo.

nobis ituris nunc meminisse fas
"pro quo quiescam?" tecta sonantia,
cantantium voces amorum,
tempora trita, bonos sodales.

hunc ut locum nunc ulterioribus
mutamus atque haec tempora condimus
permira digressumque nostrum
incipimus, valeatis usque.

Secondary School Teaching Prizes

Recognition, by Provost David S. Lee, of recipients of prizes for distinguished secondary school teaching in the State of New Jersey.

Marcelino Garcia

North Brunswick Township High School
English as a Second Language Teacher

Marcelino Garcia's colleagues describe him as creative, passionate, and inspirational. He empowers his students to serve as leaders in his peer tutoring program, through which they motivate themselves and their peers to succeed in academics and everyday life. He engages parents of his students in an English-as-a-second-language course that supports their own learning and career development while helping them participate actively in their children's education. According to his students, Marcelino is a rare soul who sees the potential in every student and represents hope to many of them.

Jennifer Kelly

Woodstown Middle School
Language Arts Teacher

An innovative and deeply caring language arts leader, Jennifer Kelly inspires her students to recognize and develop their unique voice. Her colleagues note that she has changed the reading culture in her building by establishing programs that serve as models to other institutions. In her Writer's Workshop, students meet published authors in person and through video chats, posing their questions, one writer to another. "We [are] treated like individuals," one student says, "not adolescents." Jennifer's classroom transforms learning and reading into a beloved choice, not a chore.

Natalie Macke

Pascack Hills High School
Science Teacher

With "gusto" Natalie Macke engages her students in the world of science through active inquiry inside the classroom and beyond. Her Climate Stewards program enables high school students to communicate their climate science investigations to a broad community audience. Through a School Garden project, students with differing abilities learn not only how to maintain a garden, but how to work with each other in a unique and safe environment. "She has allowed me to grow into a better person," one student says. "She has opened to us the possibilities and opportunities in the world."

Susan Spencer P'95

Northern Highlands Regional High School
Teacher of European History and Psychology

Susan Spencer's colleagues and students give testament to her ability to combine the incredible breadth of her knowledge and expertise with humor and a passion for learning. In addition to engaging students in one of her school's most popular elective courses and supporting their consistently successful performance on AP exams, Susan is admired for her authenticity and convictions as the one openly gay teacher at her school, a role model who is dedicated to her students' emotional well-being. Wrote one former student, "You saved my life. Thanks for having the courage to put yourself out there."

Advanced Degrees

Valedictory Oration

Misha Semenov

The valedictory is awarded by vote of the faculty to one of the highest-ranking candidates for bachelor degrees. The special qualifications of a student as valedictorian are taken into account, as well as scholastic standing.

Presentation to the president, by Dean of the Graduate School Sanjeev R. Kulkarni, of candidates for advanced degrees; conferral of the degrees by the president.

The President's Awards for Distinguished Teaching

Recognition, by Dean of the Faculty Deborah A. Prentice, of recipients of awards for sustained records of excellence in undergraduate- and graduate-level teaching by Princeton University faculty members.

Frederick M. Hughson

Professor of Molecular Biology

Fred Hughson inspires his students to exalted levels of effort. He redesigned the toughest molecular biology course and teaches it with a clarity and enthusiasm that leave his students genuinely excited about learning. Most importantly, he cares — cares that his students truly understand the science, appreciate its relevance to their lives, and have the confidence to succeed. Whether you ask his colleagues, high school teachers in his summer program, or his students, they all say “Fred is fantastic. Seriously.”

Benjamin C. Morison

Professor of Philosophy;
Director, Program in Classical Philosophy

According to his students, learning from Ben Morison is one of the memorable joys of Princeton. His field of ancient philosophy is governed by giants like Plato and Aristotle. He breathes life into their work, breaking down complex philosophical concepts into fundamental first principles and enabling his students to see for themselves the strengths and weaknesses of a philosophical argument. He shows his students how to think, and by extension how to live what Plato calls “the best life.”

Paul R. Prucnal

Professor of Electrical Engineering

Paul Prucnal is a passionate teacher of electrical engineering, known for grounding abstract concepts in practical applications. His teaching does not stop when class is over; advising does not end with graduation; and mentoring is a lifelong commitment. He literally gives his whole heart to teaching, letting students test on him their newly minted electrocardiograms; he nurtures his students with home-baked pies that he offers as antidotes to stress; and he convinces his students that there are no limits to what they can create, invent, or achieve.

Esther H. Schor

Professor of English

Even in the bright constellation of the English department's notable teachers, Starry Schor shines bright. For graduate students she is a trusted mentor, a pragmatic and intellectually generous adviser, and “the best friend your paper ever had.” Undergraduates call her a “once in a blue moon” teacher who crafts spellbinding lectures that cross fields, eras, and genres. A humanist in the best tradition, she is a life-changing teacher who models what it means to be an insightful scholar as well as a stellar human being.

Retirements

Recognition, by Dean of the Faculty Deborah A. Prentice, of the retiring members of the faculty, administration, and staff.

Honorary Degrees

Presentation to the president of the candidates for honorary degrees by the University Orator and Trustee, Randall L. Kennedy, Class of 1977. Conferral of the degrees by the president.

Harry Belafonte

Doctor of Laws

Harry Belafonte's life has spanned many roles, including actor, singer-songwriter, social activist, and producer. With a recording career that began in his early 20s, Belafonte became famous for his blend of pop, jazz, and Caribbean musical styles, and was dubbed "The King of Calypso." He won three Grammy Awards, including a Lifetime Achievement Award, and a Tony Award. His star power propelled him into film acting in the 1950s, with titles including *Carmen Jones*, *Island in the Sun*, and *Odds Against Tomorrow*. His later work focused on documentaries. In 1960, he won an Emmy Award for his TV special, *Tonight with Harry Belafonte*. He was awarded the National Medal of Arts in 1994. Belafonte has received numerous honors for his humanitarian work. As a civil rights activist, he was a confidant of Martin Luther King Jr. In the 1980s, he helped start the USA for Africa project to fight hunger. He played a key role in recording the 1985 multi-artist song, "We Are the World," to raise funds for Africa. Recently, Belafonte founded Sankofa, a nonprofit organization that brings together artists and grassroots organizations to confront social issues.

Raised in poverty in Harlem and Jamaica, he became one of the foremost entertainers of his generation, generously sharing his fame to further the careers of others. Following in the footsteps of Paul Robeson, he used music to bridge national and ethnic differences. In working tirelessly for civil rights across the South, opposing apartheid in South Africa, and mobilizing famine relief for Ethiopia, he has reminded us that "we are the world." His integrity and courage inspire admiration and imitation, and his example strengthens our hope that the daybreak of justice, peace, and equality may still come, if we, like him, let our light shine: Day-O!

David P. Billington '50

Doctor of Science

David Billington is the Gordon Y. S. Wu Professor of Engineering, Emeritus, at Princeton University. A 1950 graduate of Princeton, he started teaching at the University in 1960 and transferred to emeritus status in 2010. He is known for his design work on large structures, including bridges and thin-shell concrete structures. A legendary teacher, Billington taught generations of Princeton undergraduates, building connections between engineering and other disciplines through popular courses such as "Structures and the Urban Environment" and "Engineering in the Modern World." His honors include three Engineering Council awards, the President's Distinguished Teaching Award, and the National Science Foundation Director's Award for Distinguished Teaching Scholars. He was elected to the National Academy of Engineers in 1986 and is a fellow of the American Academy of Arts and Sciences. His books include *Power, Speed and Form: Engineers and the Making of the Twentieth Century*, with his son, David Billington Jr.; *The Innovators: The Engineering Pioneers Who Made America*, and *Félix Candela: Engineer, Builder, Structural Artist*, with colleague Maria Garlock.

Princeton University (B.S.E., 1950)

An epic scholar and legendary teacher, he inspired students, colleagues, and designers to integrate the discipline of engineering with the play of art. From Fulton's steamboat to Maillart's bridges, he introduced us to the engineering pioneers who revolutionized the world and opened our eyes to the creativity of engineering at its best. "Structural art" is his vocabulary for bridges, towers, and vaults that embrace efficiency through form, economy through construction, and elegance through structural expression. His legacy is the generations of students whose lives were formed and shaped by exposure to his love and deep appreciation of engineering as art.

Ann Dunwoody

Doctor of Laws

Ann Dunwoody is a retired general of the U.S. Army. In 2008, she became the first woman in U.S. military history to achieve four-star officer rank. She retired in 2012 after a total of 37 years of service. During her last four years, she led the largest global logistics command in the Army, with 69,000 military and civilian personnel in all 50 states and more than 140 countries. She managed the Army's logistics operations in Iraq and Afghanistan as well as contingency operations in Haiti, Pakistan, and Japan. Dunwoody's military honors include two Distinguished Service Medals, a Defense Superior Service Medal, and three Legion of Merit awards. She was awarded the National Order of Merit by France. As she did during her career, Dunwoody continues to speak out against sexual assault in the military. Dunwoody is president of First 2 Four, LLC, a leadership mentoring and strategic advisory services company. Her book, *A Higher Standard*, was published in April.

State University of New York College at Cortland (B.A., 1975); Florida Institute of Technology (M.S., 1988); Industrial College of the Armed Forces (M.S., 1995)

The first female four-star general in U.S. history, she comes from a family that has defended the nation since before the Civil War. During almost four decades in the military, she oversaw operations of staggering complexity in every state and all across the world. Her passion was to serve and her guide star was "never forget the soldier." A persistent and continuing voice calling for respect and fair treatment for women, she embodies a line from the official Army anthem: She is "always fighting from the heart."

Deborah Tobias Poritz

Doctor of Laws

Deborah Poritz served as chief justice of the Supreme Court of New Jersey from 1996 to 2006. During her tenure, she authored numerous opinions on significant issues, including the right of same-sex couples to wed. Prior to serving as the court's first female chief justice, she served as New Jersey's first female attorney general. In that role, she defended Megan's Law in state and federal courts and chaired the task force that proposed and implemented a reorganization and reformation of the juvenile justice system in the state. Previously, she was chief counsel to Gov. Thomas Kean '57. Poritz currently is of counsel in the Princeton office of the law firm Drinker Biddle & Reath. She has received the National Association of Women Judges' Lifetime Achievement Award and the Civic Leadership Award from the New Jersey Council for the Humanities, among others. She has held numerous leadership positions in professional organizations.

Brooklyn College (B.A., 1958); University of Pennsylvania Law School (J.D., 1977)

After teaching school and then earning her law degree at the age of 40, she ascended to this state's highest legal offices. A pioneering jurist, she was the first woman to serve as chief justice of the New Jersey Supreme Court and the first woman to serve as the State's attorney general. Her commitment to fair treatment helped secure opportunities and protections for many facing discrimination and injustice. This Brooklyn native has long been at home in Princeton where she applies her wise counsel in her law practice and in interactions with our students, encouraging determined advocacy on behalf of a civic and social vision that seeks the best in all of us.

John Paul Stevens

Doctor of Laws

Nominated to the Supreme Court by President Gerald Ford in 1975, John Paul Stevens served as associate justice until his retirement in 2010. At the time of his retirement, he was the oldest member of the Court and the third-longest serving in Court history. Stevens served in the United States Navy from 1942 to 1945. He was admitted to law practice in Illinois in 1949 and focused on antitrust law. In 1970, he was appointed to the U.S. Court of Appeals for the Seventh Circuit. Before retiring from the Supreme Court, Stevens had written some 1,400 opinions, roughly half of them dissents. In 2011, Stevens participated in a conversation on campus with then-Provost Christopher L. Eisgruber, who served as a law clerk for Stevens from August 1989 to July 1990. In 2012, Stevens received the Presidential Medal of Freedom. Stevens is the author of *Six Amendments: How and Why We Should Change the Constitution*, published last year.

University of Chicago (A.B., 1941); Northwestern University School of Law (J.D., 1947)

After defending our freedom in World War II, he devoted his career to upholding our Constitution. His 40 years on the bench, including 35 on the Supreme Court, were distinguished by careful legal craftsmanship and steadfast adherence to constitutional ideals. A champion of liberty and an exemplar of reasoned judgment, his jurisprudence manifested a deep regard for the dignity of

every individual, the traditions of the American people, and the values of our country. After leaving the Court, he has remained a thoughtful and prolific commentator on the Constitution, extending still further his legacy as one of this nation's most compelling advocates for freedom, justice, and the rule of law.

Mario Vargas Llosa

Doctor of Letters

The acclaimed Peruvian novelist Mario Vargas Llosa won the Nobel Prize in literature in 2010 when he was teaching for a semester at Princeton. He first taught at Princeton in 1992, and most recently he taught in 2013. His literary papers are housed in the University's Firestone Library. Known for his deep engagement with politics and history and for his deft storytelling, Vargas Llosa has been a major figure in Latin American fiction since his debut novel, *The Time of the Hero*, was published in 1963. He has written more than a dozen novels, as well as nonfiction and drama. Among his novels are: *Aunt Julia and the Scriptwriter*, *The War of the End of the World*, *The Feast of the Goat*, and *The Dream of the Celt*. His latest book, *The Discreet Hero: A Novel*, was published in March.

Universidad Nacional Mayor de San Marcos (Licenciado en Literatura, 1958); Universidad Complutense de Madrid (Ph.D., 1959)

For half a century, since the publication of "The Time of the Hero," he has helped us take in the specifics of his native Peru, and take on a much more spacious purview. He writes with a rare combination of intellectual vigor and emotional valor that allows him to tackle subjects, including the overtly political, from which many would simply shy away. We honor him today as a truth teller, a tester of boundaries, a master of his craft, and a teacher in the broadest sense of the term.

A Commentary on Commencement

Remarks by the President

Old Nassau

Tune ev'ry heart and ev'ry voice,
Bid ev'ry care withdraw;
Let all with one accord rejoice,
In praise of Old Nassau.

In praise of Old Nassau, we sing,
Hurrah! Hurrah! Hurrah!
Our hearts will give
while we shall live,
Three cheers for Old Nassau.

In Memoriam

The University remembers here with great sadness a member of the Class of 2014, whose untimely death occurred this year prior to degree completion.

Aryeh Avraham Stein-Azen, *Politics*

Princeton traces its founding to a royal charter granted on October 22, 1746, by King George the Second of England. The first Commencement Exercises were held in 1748, in Newark, then home of the College of New Jersey, as Princeton was originally called. Six students were graduated at the first Commencement; today there are approximately 1,290 seniors receiving undergraduate degrees.

One of Princeton's first graduate students was James Madison 1771, later the fourth president of the United States. He remained at the college after graduation to continue his studies with President John Witherspoon, who was the only college president as well as the only clergyman to sign the Declaration of Independence. Systematic graduate instruction began in the 1870s, and the Graduate School, as it is known today, was formally organized in 1900. More than 500 recipients of advanced degrees will be recognized at Commencement today.

Princeton's Commencements have been held in late spring only since 1844. Before then the ceremony took place in the fall because the College was in session all summer long. Since the College moved to Princeton in 1756, Commencement has been held in a variety of locations on or near campus, including Alexander Hall, the First Presbyterian Church, and Nassau Hall, but since 1922 the front lawn of Nassau Hall (known as front campus) has been the site of Commencement, weather permitting.

The Commencement Setting

Guests at a Commencement held on front campus visit historic ground. The word "campus" defined to mean the grounds of a college was first used at Princeton University. "Front campus" is used to refer to the lawn in front of Nassau Hall, Princeton's oldest building and a registered national historic landmark. The largest academic structure in the Colonies, Nassau Hall provided, for nearly one-half century after its completion in 1756, all the facilities of the College—classrooms, bedrooms, refectory, library, and prayer hall.

Nassau Hall was the scene of an unsuccessful stand of the British in the crucial Battle of Princeton in 1777. In the spring of 1779, when the farm called Prospect just behind Nassau Hall was owned by a retired Indian agent, its

campus border (now McCosh Walk) was home to an encampment of Delaware sachem. These Native American leaders, here at the behest of the Continental Congress, presented three young Delaware Indians for education in Nassau Hall at Congress's expense—making the education of American Indians at Princeton the first instance of U.S. federal aid to education.

Nassau Hall was once the Capitol of the country: The Continental Congress met in its library room for four months in 1783. In its prayer hall, Washington received the thanks of Congress for his conduct of the war.

To the north—behind the spectator facing Nassau Hall—is FitzRandolph Gate, named in honor of Nathaniel and Rebecca FitzRandolph, who donated the land on which Nassau Hall was built.

To the west is the John Maclean House, built as a home for the president when Nassau Hall was constructed in 1756. It is named for Princeton's 10th president, who lived there between 1854 and 1868. Ten of Princeton's first 11 presidents, until 1879, lived in the house. It was the residence of deans of the faculty between 1883 and 1967 and became the headquarters of the Alumni Council in 1968. The sycamore trees in the front yard are known as "the Stamp Act Trees" because they were planted in 1765, the year the Stamp Act was repealed.

Behind Maclean House is Stanhope Hall, the University's third-oldest building, erected in 1803. Its architect was Benjamin Latrobe, who also designed the Capitol in Washington and supervised the reconstruction of Nassau Hall after a disastrous fire in 1802. Stanhope Hall is now home of the Center for African American Studies.

To the east is the Joseph Henry House, the home of the University's Society of Fellows in the Liberal Arts and the Council of the Humanities. It was built in 1837 for Joseph Henry, professor of natural philosophy and a pioneer experimenter in electromagnetism. Originally built to the south of Stanhope Hall, the house was relocated twice before being moved to its present location in 1946 to make way for Firestone Library. Professor Henry sent messages over a wire several years before Morse perfected the telegraph for commercial use. He later became the first secretary of the Smithsonian Institution in Washington, D.C.

Flanking the front steps of Nassau Hall are two bronze tigers that were given to the University in 1911 by the Class of 1879, Woodrow Wilson's class. The tiger has been a symbol of Princeton since the latter part of the 19th century.

On the Commencement platform, front and center, is a replica of the University's seal, which is the corporate signature of the Trustees (it is also reproduced on the cover of this program). Today's ceremony is a continuation of a regular Board meeting that was adjourned yesterday "to reconvene on front campus," to permit the Trustees to confirm undergraduate, advanced, and honorary degrees at this public ceremony.

The current seal was adopted in 1896 when, at the Sesquicentennial of its founding, the College of New Jersey became Princeton University. The Trustees' minutes of February 13, 1896, describe the seal as follows: "... a shield resting upon a circle. In the upper part of the shield an open Bible with Latin characters VET NOV TESTAMENTUM signifies the Old and New Testaments.... In the lower part a chevron, denoting the rafters of a building. In the spaces between the sides of the shield and the circle the motto DEI SUB NUMINE VIGET (Under God's power she flourishes). On the outside of the circle SIGILLUM UNIVERSITATIS PRINCETONIENSIS (the seal of Princeton University)."

The front campus is of particular importance to alumni of the University. It is where students become alumni at Commencement and where alumni assemble for the annual P-rade at Reunions just prior to Commencement. During a special Charter Day convocation to celebrate the University's 250th anniversary a plaque was placed in the center of front campus, where the crosswalks meet, to recognize the many and diverse contributions of alumni. The plaque's inscription reads, "In the Nation's Service, In the Service of All Nations. On the occasion of its 250th Anniversary Princeton University here records its gratitude to its alumni for their devotion to the University and its mission of education, scholarship, and service. October 22, 1996."

The Academic Procession

The academic procession is led by the chief marshal, a member of the faculty

appointed to this position by the president. The forming of the procession, the seating of Commencement participants, and other aspects of Commencement Exercises are managed by the faculty marshals and the assistant marshals. Faculty marshals are identified by their unique orange gowns and black 16th-century caps, as is the mace-bearer, who carries the ceremonial mace in the academic procession. Assistant marshals, who are members of various University staffs, wear academic gowns and distinctive orange-and-black Da Vinci caps; student ushers wear academic gowns with orange piping and no hoods.

Advanced degree candidates, receiving masters' or doctoral degrees, come first in the procession. They received their academic hoods at a Graduate School ceremony yesterday. They are preceded by a gonfalon, a decorative banner representing the Graduate School. Seniors come next, also preceded by gonfalons, for each of Princeton's six residential colleges.

Since 1982, residential colleges have been the center of residential life for freshmen and sophomores. In fall 2007, with the opening of Whitman College, the University inaugurated an expanded residential college system that includes three four-year colleges and pairs them with three two-year colleges. Juniors and seniors may live in the residential colleges and even upperclass students who do not live in the colleges remain associated with them. Each college has a faculty master, dean, director of studies and director of student life, as well as residential college advisers, who are upperclass students, and resident graduate students. Academic advising for freshmen and sophomores is centered at the colleges, and juniors and seniors also are encouraged to confer with their college advisers for non-departmental advising throughout their undergraduate careers. Following Commencement Exercises today, seniors will receive their diplomas in their residential college (see Diploma Distribution Events below).

Following degree candidates in the procession are members of the platform party including members of the faculty and senior administration, Trustees and special award winners, heads of neighboring institutions of higher learning, and the mayor of Princeton. At the end of the procession are the chair of the Board of Trustees and the president of the University, led by the faculty mace-bearer.

The mace was presented to the University by the citizens of Princeton in 1956, on the occasion of the 200th anniversary of the opening of Nassau Hall. It symbolizes the authority of the president of the University as well as the close relationship that has existed between the University and the community ever since the College was first invited to move to Princeton in 1752. The mace's silver headpiece is dominated by the eagle of freedom surmounting the orb of power—a traditional American pattern. Directly below is the seal of the University, encircled by ivy. The ebony staff is fluted to symbolize the fasces of authority. A half-staff circlet of silver is decorated with the seals of the United States and the State of New Jersey, and also of Great Britain, under whose authority the first charter was granted in 1746.

The president of the University wears a special gown, symbolic of that office and of the institutional continuity it represents. The gown is black, trimmed with gold, and faced with the orange of Princeton and of the House of Nassau. The 19 bands of gold lacing on the sleeves of the gown represent the 20 presidents who have guided Princeton since its founding. In order of succession they are Jonathan Dickinson; Aaron Burr Sr.; Jonathan Edwards; Samuel Davies; Samuel Finley; John Witherspoon; Samuel Stanhope Smith; Ashbel Green; James Carnahan; John Maclean; James McCosh; Francis Landey Patton; Woodrow Wilson; John Grier Hibben; Harold Willis Dodds; Robert Francis Goheen; William Gordon Bowen; Harold Tafler Shapiro; Shirley M. Tilghman; and Christopher L. Eisgruber, who assumed office July 1, 2013.

Academic Dress and Custom

Three major levels of academic achievement are represented by different types of gowns. Successful completion of requirements for the bachelor's degree is symbolized by the bachelor's gown, made of black material, with long, pointed sleeves. The gown is generally worn closed. Like the bachelor's gown, the master's gown is black without trim and is identified by the shape of the oblong sleeve, square at the end and sealed, so that the upper part of the arm comes through a slit in the sleeve. The doctor's gown and the master's gown may be worn open or closed.

Although some universities prescribe a solid color such as red, crimson, or green for their doctoral gowns, in the United States most are black. In some cases the gown's trim matches the edging of the hood, thus indicating the profession or field of major interest. The doctoral gown has bell-shaped sleeves as a further distinguishing mark.

Because members of the Princeton University faculty completed their graduate work at many different educational institutions in this country and abroad, there will be a variety of raiment in today's procession. Some degree holders wear no hood because their academic robe itself symbolizes the degree awarded (witness the scarlet gown of Oxford).

The length and shape of the academic hood and the width of its velvet edging help to identify the level of the degree that the wearer has earned. Sometimes velvet edging is used to indicate the field or discipline in which the degree was granted. Some examples of colors assigned to different disciplines are: dark blue, philosophy; light blue, education; peacock blue, public affairs; brown, fine arts or architecture; copper, economics; green, medicine; orange, engineering; pink, music; purple, law; scarlet, divinity or theology; white, arts, humanities, or letters; golden yellow, science or science in engineering.

The lining of the academic hood provides added color and gives further meaning to most academic costumes. The black shell of the hood, varying in size for each of the three kinds of degrees, is lined with the official color (or colors) of the college or university conferring the degree. More than one color is often shown by the use of the chevron or by an equal division of school colors.

Caps, generally mortarboards with tassels, have their own significance. Some foreign degree holders wear special hats, distinctive to their degree and institution. Master's and bachelor's tassels are black, while the doctor's tassel may be black or gold. The doctoral cap may be made of velvet.

The Use of Latin

In 1748 the exercises were conducted entirely in Latin. Besides the address by the salutatorian "performed in good Latin from his Memory in a handsome oratorical Manner," there were also "publick Disputations in Latin" by all six candidates for the bachelor's degree on six separate questions in philosophy and theology, and "an elegant Oration in the Latin Tongue, delivered memoriter," by Aaron Burr Sr., the second president of the College. Today, Latin is still used by the president in the conferring of degrees and by the salutatorian. Degrees are conferred under the authority of the president and the Trustees, as established in the charter. In token thereof, the president and Trustees wear caps when conferring degrees. Each time a dean or the University orator puts on a cap and goes to the lectern to present candidates for degrees, the Trustees also put on their caps. The president makes appropriate remarks and tips his cap to signify the formal conferral of the degree.

The Latin used by the president in the conferring of degrees is simple and straightforward: *Auctoritate mihi a curatoribus Vniversitatis Princetoniensis commissa, vos ad gradum primum in artibus et cum honoribus, ut indicatum est, admitto.* "By the authority vested in me by the Trustees of Princeton University, I admit you to the degree of bachelor of arts, with honors as indicated." The same formula is used for all the other degrees with appropriate amendments.

The Latin Salutatory and the Valedictory

The Latin salutatory is the oldest Commencement honor, dating to the first Commencement in 1748. Some of the most distinguished members of the Princeton faculty were former salutatorians, including Henry Burchard Fine, Henry van Dyke, Allan Marquand, William Berryman Scott, Henry Norris Russell, and President Emeritus Robert Francis Goheen.

The valedictory was first awarded as a graduation honor in 1760. Probably the greatest moment ever experienced by a Princeton valedictorian was the one enjoyed by Ashbel Green in 1783. The Continental Congress held some of its meetings that year in the library room of Nassau Hall. It adjourned its sessions to attend Commencement. Green concluded

his valedictory with an address of some length to George Washington, who was present. "The next day," Green later recorded, "General Washington met me in the entry of the College as he was going to a committee-room of Congress, took me by the hand, walked with me a short time, flattered me a little, and desired me to present his best respects to my classmates, and his best wishes for their success in life. There has never been such an audience at a Commencement before and perhaps there never will be again." Later, in 1812, Ashbel Green became Princeton's eighth president.

Academic Honors

Membership in Phi Beta Kappa is based on general academic performance throughout the college course and through election by the society. Membership in Sigma Xi is accorded in science and engineering. Undergraduates who show promise in scientific and engineering research are elected to associate membership. The national engineering society, Tau Beta Pi, has a chapter at Princeton to which certain candidates for the B.S.E. degree are admitted in recognition of superior scholarship.

The first honorary degree given by Princeton was master of arts honoris causa, conferred at the first Commencement upon Jonathan Belcher, governor of the Province of New Jersey and promoter and benefactor of the College, who secured its second charter. The Trustees sought to honor him further in 1756 by proposing to name the College's first building for him. He declined and suggested instead that it be named in honor of William III, "a branch of the illustrious House of Nassau."

Today candidates for honorary degrees are selected by a committee made up of Trustees and members of the University community. The criteria used in the committee's deliberations include genuine achievement and distinction in an activity consonant with the mission of the University; the advancement of learning in the arts, sciences, and technology, and for the public welfare; and distinguished contribution in elective, appointive, or career service notable for demonstrated qualities of intellect as well as character. Candidates must be approved by a vote of four-fifths of the Board of Trustees present and voting.

Music for Commencement

Members of the Chamber Orchestra of Philadelphia, conducted by Paul Erion, provide the music for today's Commencement. Selections for the pre-Commencement concert may include Paul Dukas's Fanfare from "La Peri"; Paul Erion's arrangements of George Frideric Handel's "Music for the Royal Fireworks" and Richard Wagner's "Elsa's Procession to the Cathedral"; and Gustav Holst's own arrangement for band of "Jupiter" from "The Planets."

During the procession, you will hear classics from the British military band repertory: Holst's "Suites 1 and 2 for Military Band," Ralph Vaughan Williams's "Folk Song Suite," and William Walton's "Crown Imperial March," the last composed for the coronation of King George VI. The recessional music includes Donald Hunsberger's arrangement of Dmitri Shostakovich's "Festive Overture," and concludes with marches by John Philip Sousa.

At the close of today's program, "Old Nassau" will be led by members of the senior class Diane S. Hu, Joe LoPresti, and Paul A. Riley Jr.

President of the University Christopher L. Eisgruber

Christopher Ludwig Eisgruber was elected Princeton University's 20th president on April 21, 2013, and assumed office on July 1, 2013. A renowned constitutional scholar, he served as a member of the Princeton faculty for 12 years and as Princeton's provost for nine years before being named president.

Eisgruber received his A.B. in physics from Princeton in 1983, graduating magna cum laude and Phi Beta Kappa. He then earned an M.Litt. in politics at the University of Oxford as a Rhodes Scholar, and a J.D. cum laude at the University of Chicago Law School, where he served as editor-in-chief of the law review. After clerking for U.S. Court of Appeals Judge Patrick Higginbotham and U.S. Supreme Court Justice John Paul Stevens, he taught at New York University's School of Law for 11 years.

In 2001, Eisgruber joined the Princeton faculty as the director of the Program in Law and Public Affairs and the Laurance S. Rockefeller Professor of Public Affairs in the Woodrow Wilson School of Public and International Affairs and the University Center for Human Values. He directed Princeton's Program in Law and Public Affairs from 2001 to 2004, and he served for a year as acting director of the Program in Ethics and Public Affairs in 2002-03.

In addition to writing and editing several books and publishing numerous articles on constitutional issues, Eisgruber has testified multiple times before legislative bodies on the issue of religious freedom. His books include *Constitutional Self-Government* (2001); *Global Justice and the Bulwarks of Localism: Human Rights in Context* (edited with Andras Sajo, 2005); *Religious Freedom and the Constitution* (with Lawrence Sager, 2007); and *The Next Justice: Repairing the Supreme Court Appointments Process* (2007). In 2014, he was elected to membership in the American Academy of Arts and Sciences.

In case of severe weather

If Commencement on front campus is interrupted by heavy rain, high winds, or thunder and lightning, the ceremony will be ended promptly. The president will award undergraduate and advanced degrees, should that part of the program not have been reached, and guests and graduates will be dismissed. Diplomas may be picked up as described under "Diploma Distribution Events." The platform party, and guests of faculty and of teacher award winners and of honorary degree recipients will retire to the Faculty Room in Nassau Hall where these awards and certificates will be presented. Other guests and degree candidates must vacate the area and seek shelter as directed by Public Safety Officers, Assistant Marshals, and ushers. Recommended locations for shelter include Alexander Hall and Dillon Gym (on the west side), Firestone Library and the University Chapel (on the east side).

Please turn off cell phones and other electronic devices or switch them to silent/vibrate mode during the ceremony.

Photographs of the ceremony taken by photographers engaged by the University will be available at www.princeton.edu/pr/gradpics/2015. These include photographs of the graduates exiting FitzRandolph Gate at the end of the ceremony.

Restrooms are located in Chancellor Green; at the corner of East Pyne opposite Whig Hall; in Alexander Hall (on the west side of audience); in Clio Hall (use rear entrance); and in West College.

Diploma Distribution Events

Each of the residential colleges hosts a reception following Commencement for seniors and their guests, and diplomas will be distributed at these events. Seniors should go to the college to which they are currently assigned to receive their diplomas. Diplomas will be available immediately after Commencement until 2:30 p.m. in the residential colleges. Colleges are within walking distance of Nassau Hall, and shuttles are available from Alexander Hall following Commencement.

Diplomas not picked up at the residential college receptions will be available in the Office of the Registrar in 101 West College from 3 to 5 p.m. on Commencement day and from 9 a.m. to 5 p.m. on the day following Commencement.

Shuttles to the receptions leave from Alexander Hall after graduation. Locations of the receptions in the colleges follow.

Butler College: Butler Green on Elm Drive. The diploma distribution tent is near Yoseloff Hall and behind the large dining/reception tent. The Central Line travels along Elm Drive stopping at the Butler College event.

Forbes College: Forbes College living room and terrace. The "Forbes Express" bus goes directly to Forbes College; the bus will make return trips stopping at the West parking garage, after 1:30 p.m.

Mathey College: Hamilton-Joline corridor (diplomas distributed); Mathey College dining hall and common room (reception areas). Mathey College is adjacent to the Commencement location; please use the walkway marked between Hamilton and Joline Halls.

Rockefeller College: Holder Cloister (diplomas distributed); Rockefeller College common room and dining hall (reception areas). Holder Cloister's entrance is between Alexander Hall and Nassau Street. Please use the entrance to the dining hall on Nassau Street.

Whitman College: The Class of 1963 Courtyard. The Central Line travels along Elm Drive stopping at Whitman College.

Wilson College: Dodge Osborn Courtyard. Take the Central Line south on Elm Drive. Exit at Whitman College and walk east on Goheen Walk. Wilson College is on the left. Enter the main lobby, proceed up the stairs and exit through the lobby doors on the right to reach Dodge-Osborn Courtyard.

Advanced degree recipients whose degrees have been conferred by the trustees at the current meeting receive their diplomas on Cannon Green, in front of Clio Hall, home of the Graduate School.
